

## Conflict of interest statement

Dear Sir, Madam,

Reviewers involved in the assessments of TransNational Access (TNA) applications to EASI-Genomics, have committed to avoid conflicts of interests and thus to "prevent any situation where the impartial and objective implementation of the action is compromised for reasons involving economic interests, political or national affinity, family or emotional ties or any other shared interest" (Article 35.1 of the EASI Genomics Grant Agreement; see also section 4.4.1 of the Consortium Agreement).

Such requirement concerns individuals making decision regarding TNA applications either through:

- The Scientific and Technical assessment or
- The Ethics Check.

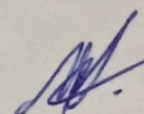

As a reviewer, you are required to declare any existing conflict of interest related to the projects assigned to you for review (see excel file) before practicing any formal assessment of the applications received by EASI-Genomics. In case of declared conflicts of interest, you will not be able to practice the review of the concerned project(s).

In case of question, you can contact EASI-Genomics coordination.
